PROJECTS

PORTFOLIO WEBSITE

- The main objective of this project is to showcase my work, skills, and achievements. Hence, creating a strong profile.
- Along the way, I gained a better understanding of various complex CSS properties and responsive design patterns.
- Features include responsive design, easy navigation, single-page application, and more.

FOOD ORDER WEB APP

- The prime objective behind the development of this project is to learn ReactJS and how it works.
- In this, I also worked with the firebase real-time database
- It allows users to select and order their favourite meals from the menu, verify the shopping cart, provide their address information, and place an order..

BOOK PUBLICATION FIRM WEBSITE

- The main goal of this project is to learn to handle real-world projects and clients.
- Through this project, I enhanced my knowledge of HTML, CSS, Bootstrap, and JavaScript technology.
- The main features of this website are the printing cost calculator, work showcase of the firm, and live location map.

SOFT SKILLS

- Good Communication Skills
- Quick Learner
- Creativity & Problem Solving
- Positive Attitude
